EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please re-write claim 1 as follows:

1. (Currently amended) A device for controlling a rear panel (4) of a motor vehicle provided with a rear boot (2), a lid (3) for the said boot (2), and a roof which can be folded from a position in which it covers the vehicle cabin to a position in which it is stored in the rear boot (2), the said roof comprising at least one rear roof part (5), characterised by the fact that it comprises on at least one of the sides of the vehicle:

- a panel support member connected to the vehicle chassis by pivoting means so that the said panel passes, by means of a pivoting of the said support member, from an open position in which the said panel is substantially vertical and in which it leaves clear a passage for the said roof, to one of two closed positions where the said panel extends substantially horizontally in a position of closure of the said passage between the chassis and the front edge (16) of the lid (3) of the said rear boot in the first closed position, and between the chassis and the a rear edge of the rear part (5) of the roof in the second closed position;

- means of moving the said rear panel (4) in translation with respect to the said support member;

Art Unit: 3612

- means of elastic return of the said panel (4) with respect to the said support member in the direction of the said lid (3); and

- means of abutment (13, 14) between the said panel (4) and the said rear part (5) of the roof when the latter is in the closed position.

2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims in this application is that the prior art of record does not disclose or suggest a device for controlling a rear panel of a motor vehicle, comprising: a panel support member connected to the vehicle chassis by a pivoting means from an open position to one of two closed positions; means for moving the rear panel in translation with respect to the support member; means of elastic return of the panel with respect to the support member in the direction of the lid; and means of abutment between the panel and the rear part of the roof when the latter is in the closed position, in combination with the other elements recited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia L. Engle whose telephone number is (571) 272-6660. The examiner can normally be reached on Monday - Friday from 8:00 to 4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, D. Glenn Dayoan can be reached on (571) 272-6659. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
